

Now using the sellotape, stick the bottom of the gnomon to the base of the sundial.

The gnomon should stand up by itself, but you may need to secure it with some more sellotape at its base.

Find north with the compass - you'll need to slowly turn in a circle until the pointer points north.

Once you find north, place the sundial on a flat surface and line up the arrow on the top of the sundial so it points north. Make sure the sun is shining!

**You should now be able to tell the time!**

**You can make this sundial with different coloured paper or make it stronger by sticking the templates on to card.**
